

Designing eLearning with Captivate Certificate

Certificate Overview: This certificate takes you through the process of building a course from scratch using Adobe Captivate* and provides you with the knowledge and hands-on practice you need to build and edit excellent eLearning lessons. eLearning tools expert Joe Ganci will share his 32 years of innovative design and development experience to take you from Captivate basics to advanced techniques. Through demonstration and take-home exercises you will complete an online SCORM- and Tin Can-compliant course project using Adobe Captivate.

Course Objectives

After completing this course, you will be able to:

- Evaluate a storyboard for development efficiencies.
- Quickly capture, structure, and add content to a course project.
- Add engaging interactivity, learning scenarios, and simulations.
- Use audio and video in a course.
- Create a SCORM-compliant course ready for LMS upload and testing.

Sessions

SESSION 1 – (90 MINUTES)

Getting Started

- Reading and evaluating the storyboard
- Captivate Introduction
- Building an Introduction Slide
- Master Slides
- Smart Shapes
- Images
- Text
- Navigating with Buttons

Session 1 – Take Home Exercise

SESSION 2 – (90 MINUTES)

Creating a Soft Skills Simulation

- Video
- Rollover Slidelets
- Audio
- Efficient Use of Resources
- Libraries

Session 2 – Take Home Exercise

SESSION 3 – (90 MINUTES)

Enhancing and Finishing

- Software Simulations
- HTML5 / SWF
- Text animations
- Characters
- Smart Interactions

Session 3 – Take Home Exercise

SESSION 4 – (90 MINUTES)

Enhancing and Finishing

- An Overview on Quizzes
- Text Entry Boxes
- Personalizing Your Course
- Variables
- Advanced Actions
- Publishing Your Course

Session 4 – Take Home Exercise

PREWORK OR INTERIM ASSIGNMENTS:

There will be a required 1-3 hours of pre-work or interim work for this certificate.
